All property on which taxes are not paid on or before April 1, will be advertised by the collector.

Respectfully submitted,

FRED A. CURRIER,	} Selectmen
WALTER C. WELLS,	
SAM'L P. PHILBRICK,	
	} of
	} Belmont.

WATER WORKS.

RULES AND REGULATIONS.

ANNUAL RATE.

The following rates are established until further notice, and to be paid by owner of property where water is taken :

Family not exceeding 5 persons, 1 faucet.	\$6 00
Each additional person, same family,	50
Bath-tub or water-closet, approved pattern,	3 00
Hose for washing windows, carriages, or sprinkling lawns, not exceeding one hour per day, through 1-8 nozzle	3 00
Builders rates, per bbl	05
Hotels, steam-engines and motors, metre or spe- cial rates.	

When water is used for purposes not specified in the foregoing, it may be drawn through a meter or a rate will be fixed by the Superintendent upon application.

METRE RATES.

Not exceeding 24,000 gall's per year	\$10 00
Each additional 1,000 " "	25

CONTRACT.

Every person taking water thereby consents to the following regulations, and agrees to be bound by them and such other regulations as the selectmen and Superintendent may hereafter establish.

APPLICATION.

All persons desiring to take water shall make application to the Superintendent, stating fully and truly all the purposes for which it is to be used; and should additional use at any time be required the person requiring the same must notify the Superintendent before such additional use will be allowed.

SERVICE PIPES.

The town will furnish a corporation with a stop, from the main pipe. All service-pipe must be provided and maintained by the person supplied with water.

Persons taking water must keep their own water-pipes and fixtures connected therewith in good repair and protected from frost at their own expense.

They must provide a stop and waste-cock to be properly located inside the building and have the pipes so arranged that the water can be drawn from them whenever and wherever there is any danger of freezing.

USE OF WATER.

The water at sinks and other places must not be left running to prevent water in pipes freezing, or for any other purpose; and all necessary waste of water must be prevented. No owner or tenant will be allowed to supply water to other persons or families, and if found so doing the supply will be stopped and the water rent already paid forfeited.

INSPECTION.

The Superintendent must have free access at all proper times to all parts of the premises where water is delivered and consumed.

STOPPAGE.

No person shall open or close any public fountain, hydrant stop-cock, water-gate, blow-off or air-vent, attached to any water-pipe belonging to the town, except by permission of the Superintendent. Provided, however, that this shall not apply to firemen while in the proper discharge of their duties.

The town reserves the right to shut off the water for making repairs, extensions or other purposes without notice, and no person shall be entitled to damages by reason of such action of the town.

BILLS PAYABLE WHEN.

All water bills may be payable same-annually in advance, to the Superintendent on the first day of June and December. If water rents be not paid within 15 days after they become due, the flow of water may be cut off, and one dollar will be charged for turning it on again.

Water rents will commence when service-pipe is laid.

Respectfully submitted,

FRED A. CURRIER,	} Selectmen
WALTER C. WELLS,	
SAM'L P. PHILBRICK.	
	of
	Belmont.

LEON W. HAMILIN, Town Clerk

SCHOOL REPORT.

TO THE INHABITANTS OF BELMONT:

In compliance with law and custom we take pleasure in submitting a report of the condition of your schools, and our work on them during the past year. We feel justified in reporting a profitable school-year.

There has been good work on the part of teachers, and commendable progress by the scholars. No disturbance has occurred in any school, and a good degree of harmony has existed between parents and teachers, as well as between teachers and pupils. All have appeared to work together for the good of the schools.

We call attention to the fact that while the mothers have shown their interest by visiting the schools, the fathers have neglected them; only a few men having found their way to the schools during the year. We hope there will be an improvement in this matter in the future. Let your faithful, hard-working teachers have the inspiration of your presence occasionally in the school-room. We are pleased to notice less instances of tardiness than in previous years, although the number is still too great, and there is a grand opportunity for improvement in this direction.

Most of the pupils have been regular in attendance, and show the good results one would expect; some, however, have manifested no interest in school-work and it has been impossible to persuade them to be regular in attendance.

Many of them have attended school only what the law requires. This evil is more harmful than appears to the casual observer. The boy who attends school half of the time is continually falling back in rank causing derangement in the classes which is injurious to the school as a whole, and to every pupil in it.

There have been schools in the usual places, and a short term in Lower Province Road in the Spring, to accommodate the children in that locality. We considered it essential to the good of the scholars, and for the interest of the district to make some minor changes in the schoolhouse in the village, which was done at an expense of \$58. If the village, Jamestown, Union and Ladd Hill schoolhouses are to be kept painted it is not economy to neglect the work much longer; and there is no way of doing this except by an appropriation for that purpose.

At the close of the Autumn term, the teachers in the Jamestown, Ladd Hill and the First Primary schools resigned; and although it was a most unfavorable time to secure good teachers, the vacancies were filled without detriment to the schools.

We have made no general change of textbooks during the year, but when more books were needed, have in some cases, thought best to secure a new work. The course of study in the grammar school was extended by introducing Appletons History of the World for use in the senior class, and it has proved a profitable study.

It is not proposed in this report to present an essay upon the value of a good education. We have a high appreciation of, and full confidence in the good sense and sound judgment of those whom we address. There is but one opinion among you, of the value and necessity of our common schools. They have been in session 29 weeks during the year, which, in the estimation of many intelligent citizens is insufficient to give

the children as good advantages to obtain an education as justice and wisdom demands at our hands. If we are to have more schooling the coming year there must be a larger appropriation. It will require an appropriation of \$1000 to insure 30 weeks, which we think should be the minimum. We refer you to the accompanying statistical-table for other information. Thanking you for all encouragement and assistance, we submit this report for your consideration.

JOSEPH PLUMER, / School Board
E. S. MOULTON. / of Belmont
